

Biography

My name is Yi Fei Pang, but I usually go by Alex. I am currently a fourth year student at the University of Toronto Mississauga majoring in GIS and minoring in statistics and computer science. I will be graduating this Summer and hopefully be able to find something that aligns with my field of study. But first, I have to pass this class...

Outside of school and work, I like to exercise a lot. I would go to my local recreation centre to play basketball and use the gyms there for weights. On days that I feel lazier, I would stay home and play Smash Bros. or go to my friends' house for NBA 2K. On days that I feel lucky, I would play cards online or with my friends or bet on an NBA game.

Thanks for checking out my Bio!
